“WAG: THE SCIENCE OF MAKING YOUR DOG HAPPY”

Julie Bond will do an overview of the book "Wag: The Science of Making Your Dog Happy," by Zazie Todd, with a specific emphasis on the Enrichment chapter. She was an early reviewer of the book and found it to be impressive. Julie feels enrichment is incredibly important, from early puppyhood (what you do as a breeder all the way through senior dogs) She will talk about the science behind enrichment and show us some examples !

Julie Bond earned a Bachelor's Degree in Biological Psychology and a Master's Degree in Animal Behavior from the University of California at Davis. In 1991, she founded her own behavior consulting service. She has been actively involved in pet assisted therapy work for over 20 years and works closely with several rescue organizations, enjoys speaking engagements for breed clubs and community groups, and mentoring students interested in pursuing careers in animal behavior. She shares her home with two rough coat Collies.
