“MARKER TRAINING: MORE BANG FOR YOUR BUCK”

Have you ever thought about clicker training but are confused about what it means? Are you wondering if it's just a gimmick? If you are wondering these things and more, this is a must see presentation for you. Vicki will explain and demonstrate how clicker's work, how to get the most out of using one, and how to get the benefits of a clicker with a verbal marker.

Vicki Ronchette has been training dogs for over 30 years. She is an author, speaker, and professional dog trainer and behavior consultant and the owner of Show Dog Prep School.
